

Ready, Teddy, Go!

A journey through MRI

What's wrong Teddy?

Let's use our magic box to find out.

You'll need a special hat.
Does this one fit?

Be brave Teddy – it's just a scratch.

Ready, Teddy, go!

Don't worry Teddy –
you won't feel a thing.

Can you hear us Teddy?

Keep very still Teddy.
We're taking lots of pictures of you.

Look Teddy – this is you!

You've been very brave Teddy!

Can I have a go now?

Can you color Teddy?

Developed in conjunction with:
Professor Dr Ravi Bhargava
and Mrs Lindy Wozniak
Radiology and Diagnostic Imaging
University of Alberta and Stollery Children's Hospital
Canada

Professor Dr Hans-Joachim Mentzel
and Mrs Ines Krumbein
Pediatric Radiology
Institute for Diagnostic and Interventional Radiology
University of Jena
Germany
